Notes:

This table was first published on the EirGrid website on 10/12/2007. It was updated on 11/06/2008 to include the TLAFs for a new transmission node, Coomacheo 110kV station.

The TLAFs listed in this table are the same as those applicable to market participants as listed in the TLAF list for market participants which is also available on the EirGrid website.

Care should be taken when choosing the applicable transmission node for the corresponding market participant as (1) there may be multiple nodes with the same name which are distinguished with either an A/B e.g. Poolbeg A/B, Huntstown A/B or (2) the applicable TLAF may be a weighted average of a number of transmission node TLAFs.
