

## Offer Process Applicant Information

(Excludes Accepted offers and Applications which have yet to be deemed complete)

1	Points to Note.....	2
2	Proposed Transmission Connected Generators (Increases > 4 MW) .....	3
3	Proposed Transmission Connected Demand Customers (Increases > 4 MVA) .....	4
4	Proposed Distribution Connected Demand Customers (Increases > 4 MVA) .....	4
5	Proposed Distribution Connected Generators .....	4
6	Accepted Offers since Last Update.....	4

# 1 Points to Note

**Disclaimer:** All information provided in this official EirGrid site is provided for information purposes only and does not constitute a legal contract between EirGrid and any person or entity unless otherwise specified. Information on this official EirGrid web site is subject to change without prior notice. Although every reasonable effort is made to present current and accurate information, EirGrid makes no guarantees of any kind.

- (1 MW = 1 MEGAWATT = 1,000 KILOWATTS)
- (1MVA = 1 MEGA VOLT-AMP = 1000 KILO VOLT-AMPS)
- Any adjustments made to an existing applications' MEC of less than 4 MW will not be noted in "*Proposed Transmission Connected Generators (Increases > 4 MW)*".
- Possible interactions for proposed transmission connected demand customers < 4MVA have not been included in "*Proposed Transmission Connected Demand Customers (Increases > 4 MVA)*"
- Possible interactions for proposed distribution connected demand customers < 4MVA have not been included in "*Proposed Distribution Connected Demand Customers (Increases > 4 MVA)*"
- An Offer may need to be revised when an Interacting Offer accepts their Connection Offer and interactions may change as a result of connection method selected.

**Note:**

- Groups of interacting offers are based on a high level assessment of the transmission network.
- The completion of a network reinforcement could change interacting groups.
- There may be further interactions between projects on the boundaries of groups of interacting offers but this document only provides a high level assessment of the transmission network
- Large projects could in theory interact with all other applicants

## 2 Proposed Transmission Connected Generators (Increases > 4 MW)
