2nd Floor, The Courtyard,
25 Great Strand Street,
Dublin 1

MARCH 2011

NOTE:

Table 1 lists the candidate Special Areas of Conservation in the Country. The table includes each site name and code, the county/ies it lies in and its qualifying interests.

Table 2 lists the same information for all Special Protection Areas in Ireland.

The combination of the sites on Tables 1 and 2 comprise the Natura 2000 network in Ireland.

The qualifying interests listed for the SPAs in Table 2 have been taken from the NPWS Site Synopses (July 2010). These will be reviewed prior to finalisation of this report to ensure the most authoritative, consistent and up-to-date data available is used.

Table 1: Screening of SACs (Sites denoted by shading have been screened in at Statge 1)

Site Code	Site Name	Qualifying feature	County
000006	Killyconny Bog (Cloughbally)	Active raised bogs	Cavan & Meath
000007	Lough Oughter and Associated Loughs	Degraded raised bogs still capable of natural regeneration	Cavan
000014	Ballyallia Lake	Natural eutrophic lakes with Magnopotamion or Hydrocharition-type vegetation	Clare
000016	Ballycullinan Lake	Bog woodland	Clare
000019	Ballyogan Lough	Natural eutrophic lakes with Magnopotamion or Hydrocharition-type vegetation	Clare
000020	Black Head/Poulsallagh Complex	Calcareous fens with Cladium mariscus and species of the Caricion davallianae	Clare
		Calcareous fens with Cladium mariscus and species of the Caricion davallianae	Clare
		Water courses of plain to montane levels with the Ranunculum fluitantis and Callitriche-Batrachion vegetation	Clare
		Alpine and Boreal heaths	Clare
		Juniperus communis formations on heaths or calcareous grasslands	Clare
		Semi-natural dry grasslands and scrubland facies on calcareous substrates (Festuco Brometalia) (important orchid sites)	Clare
		Lowland hay meadows (Alopecurus pratensis, Sanguisorba officinalis)	Clare
		Petrifying springs with tufa formation (Cratoneurion)	Clare
		Reefs	Clare
		Limestone pavements	Clare
		Submerged or partly submerged sea caves	Clare
		Perennial vegetation of stony banks	Clare
000030	Danes Hole, Poulnalecka	Caves not open to the public	Clare
000032	Dromore Woods & Loughs	Old sessile oak woods with Ilex and Blechnum in British Isles	Clare
		Limestone pavements	Clare
		Natural eutrophic lakes with Magnopotamion or Hydrocharition-type vegetation	Clare
		Hydrophilous tall herb fringe communities of plains and of the montane to alpine levels	Clare
000036	Inagh River Estuary	Salicornia and other annuals colonizing mud and sand	Clare
		Atlantic salt meadows (Glauco-Puccinellietalia maritima)	Clare
		Mediterranean salt meadows (Juncetalia maritimi)	Clare
		Shifting dunes along the shoreline with Ammophila arenaria (white dunes)	Clare
		Fixed coastal dunes with herbaceous vegetation (grey dunes)	Clare
000037	Pouladatig Cave	Rhinolophus hipposideros	Clare

Site Code	Site Name	Qualifying feature	County
000051	Lough Gash Turlough	Turloughs	Clare
000054	Moneen Mountain	Limestone pavements Petrifying springs with tufa formation (Cratoneurion) Semi-natural dry grasslands and scrubland facies on calcareous substrates (Festuco Brometalia)(important orchid sites) Calaminarian grasslands of the Violetalia calamariae Alpine and Boreal heaths Juniperus communis formations on heaths or calcareous grasslands Turloughs	Clare
000057	Moyree River System	Limestone pavements Water courses of plain to montane levels with the Ranunculus fluitantis and Callitriche-Batrachion vegetation Alkaline fens Caves not open to the public	Clare
000064	Poulnagordon Cave (Quin)	Caves not open to the public	Clare
000077	Ballymacoda (Clonpriest And Pillmore)	Estuaries Salicornia and other annuals colonizing mud and sand Atlantic salt meadows (Glauco-Puccinellietalia maritimaee) Mudflats and sandflats not covered by seawater at low tide	Cork
000090	Glengarriff Harbour and Woodland	Old sessile oak woods with Ilex and Blechnum in British Isles Alluvial forests with Alnus glutinosa and Fraxinus excelsior (Alno-Padion, Alnion incanae, Salicion albae)	Cork
000091	Clonakilty Bay	Mudflats and sandflats not covered by seawater at low tide Annual vegetation of drift lines Embryonic shifting dunes Shifting dunes along the shoreline with Ammophila arenaria (white dunes) Fixed coastal dunes with herbaceous vegetation (grey dunes) Atlantic decalcified fixed dunes (Calluno-Ulicetea)	Cork
000093	Caha Mountains	Blanket bog (active only) Alpine and Boreal heaths Siliceous rocky slopes with chasmophytic vegetation Oligotrophic to mesotrophic standing waters with vegetation of the Littorelletea uniflorae and/or of the Isoëto-Nanojuncetea Natural dystrophic lakes and ponds Northern Atlantic wet heaths with Erica tetralix	Cork & Kerry
000097	Lough Hyne Nature Reserve and Environs	Reefs Submerged or partly submerged sea caves	Cork

Site Code	Site Name	Qualifying feature	County
000101	Roaringwater Bay and Islands	Large shallow inlets and bays Large shallow inlets and bays Reefs Vegetated sea cliffs of the Atlantic and Baltic coasts European dry heaths Submerged or partly submerged sea caves	Cork
000102	Sheep's Head	European dry heaths Northern Atlantic wet heaths with <i>Erica tetralix</i>	Cork
000106	St Gobnet's Wood	Old sessile oak woods with <i>Ilex</i> and <i>Blechnum</i> in British Isles	Cork
000108	The Gearagh	Alluvial forests with <i>Alnus glutinosa</i> and <i>Fraxinus excelsior</i> (<i>Alno-Padion</i> , <i>Alnion incanae</i> , <i>Salicion albae</i>) Water courses of plain to montane levels with the <i>Ranunculus fluitantis</i> and <i>Callitriche-Batrachion</i> vegetation Old sessile oak woods with <i>Ilex</i> and <i>Blechnum</i> in British Isles	Cork
000109	Three Castle Head to Mizen Head	Vegetated sea cliffs of the Atlantic and Baltic coasts	Cork
000111	Aran Island (Donegal) Cliffs	European dry heaths Vegetated sea cliffs of the Atlantic and Baltic coasts European dry heaths Alpine and Boreal heaths Calcareous rocky slopes with chasmophytic vegetation Siliceous rocky slopes with chasmophytic vegetation	Donegal
000115	Ballintra	Limestone pavements European dry heaths	Donegal
000116	Ballyarr Wood	Old sessile oak woods with <i>Ilex</i> and <i>Blechnum</i> in British Isles	Donegal
000129	Croaghonagh Bog	Blanket bog (active only)	Donegal
000133	Donegal Bay (Murvagh)	Mudflats and sandflats not covered by seawater at low tide Fixed coastal dunes with herbaceous vegetation (grey dunes) Humid dune slacks	Donegal
000138	Durnesh Lough	Coastal lagoons Molinia meadows on calcareous, peaty or clayey-silt-laden soils (<i>Molinia caerulea</i>)	Donegal
000140	Fawnboy Bog / Lough Nacung	Blanket bog (active only) Northern Atlantic wet heaths with <i>Erica tetralix</i> Depressions on peat substrates of the <i>Rhynchosporion</i>	Donegal
000142	Gannivejll Bog	Blanket bog (active only) Northern Atlantic wet heaths with <i>Erica tetralix</i>	Donegal

Site Code	Site Name	Qualifying feature	County
000147	Horn Head and Rinclevan	Oligotrophic waters containing very few minerals of sandy plains (Littorelletalia uniflorae) Embryonic shifting dunes Shifting dunes along the shoreline with Ammophila arenaria (white dunes) Fixed coastal dunes with herbaceous vegetation (grey dunes) Machairs (in Ireland) Dunes with Salix repens ssp.argentea (Salix arenariae) Humid dune slacks Vegetated sea cliffs of the Atlantic and Baltic coasts	Donegal
000154	Inishtrahull	White-clawed Crayfish (<i>Austropotamobius pallipes</i>).	Donegal
002135	Lough Nageage	Old sessile oak woods with Ilex and Blechnum in British Isles	Donegal
000163	Lough Eske and Ardnamona Wood	Oligotrophic waters containing very few minerals of sandy plains (Littorelletalia uniflorae) Petrifying springs with tufa formation (Cratoneurion)	Donegal
000164	Lough Nagreany Dunes	Embryonic shifting dunes Fixed coastal dunes with herbaceous vegetation (grey dunes) Decalcified fixed dunes with Empetrum nigrum Atlantic decalcified fixed dunes (Calluno-Ulicetea) Dunes with Salix repens ssp.argentea (Salix arenariae)	Donegal
000165	Lough Milian Bog (Carrickatlieve)	Blanket bog (active only) Oligotrophic waters containing very few minerals of sandy plains (Littorelletalia uniflorae)	Donegal
000168	Magheradrumman Bog	Blanket bog (active only) Northern Atlantic wet heaths with Erica tetralix	Donegal
000172	Meenaguse/Ardbane Bog	Blanket bog (active only)	Donegal
000173	Meentygrannagh Bog	Blanket bog (active only) Transition mires and quaking bogs Alkaline fens	Donegal
000174	Curraghchase Woods	Alluvial forests with Alnus glutinosa and Fraxinus excelsior (Alno-Padion, Alnion incanae, Salicion albae) Taxus baccata woods of the British Isles Mediterranean Taxus baccata woods Reefs	Limerick
000181	Rathlin O'Birne Island		Donegal
000185	Sessiagh Lough	Oligotrophic waters containing very few minerals of sandy plains (Littorelletalia uniflorae)	Donegal
000189	Silieve League	Blanket bog (active only) Alpine and Boreal heaths	Donegal

Site Code	Site Name	Qualifying feature	County
		Calcareous rocky slopes with chasmophytic vegetation Siliceous rocky slopes with chasmophytic vegetation Vegetated sea cliffs of the Atlantic and Baltic coasts Reefs Northern Atlantic wet heaths with <i>Erica tetralix</i>	
000190	Slieve Tooley/Tormore Island/Loughros Beg Bay	Decalcified fixed dunes with <i>Empetrum nigrum</i> Atlantic decalcified fixed dunes (<i>Calluno-Ulicetea</i>) Blanket bog (active only) Shifting dunes along the shoreline with <i>Ammophila arenaria</i> (white dunes) Embryonic shifting dunes Vegetated sea cliffs of the Atlantic and Baltic coasts Alpine and Boreal heaths	Donegal
000191	St. John's Point	Reefs Semi-natural dry grasslands and scrubland facies on calcareous substrates (<i>Festuco Brometalia</i>) (important orchid sites) Molinia meadows on calcareous, peaty or clayey-silt-laden soils (<i>Molinion caeruleae</i>) Alkaline fens Limestone pavements Submerged or partly submerged sea caves Large shallow inlets and bays	Donegal
000194	Tranarossan and Melmore Lough	Vegetated sea cliffs of the Atlantic and Baltic coasts Perennial vegetation of stony banks Shifting dunes along the shoreline with <i>Ammophila arenaria</i> (white dunes) Fixed coastal dunes with herbaceous vegetation (grey dunes) Embryonic shifting dunes Machairs (in Ireland) Dunes with <i>Salix repens</i> ssp. <i>argentea</i> (<i>Salix arenariae</i>) European dry heaths Annual vegetation of drift lines Alpine and Boreal heaths Decalcified fixed dunes with <i>Empetrum nigrum</i> Mudflats and sandflats not covered by seawater at low tide Hard oligo-mesotrophic waters with benthic vegetation of <i>Chara</i> spp.	Donegal
000197	West of Ardara/Maas Road	Northern Atlantic wet heaths with <i>Erica tetralix</i> European dry heaths Alpine and Boreal heaths Blanket bog (active only) Alkaline fens	Donegal

Site Code	Site Name	Qualifying feature	County
		<p>Juniperus communis formations on heaths or calcareous grasslands Molinia meadows on calcareous, peaty or clayey-silt-laden soils (Molinion caeruleae) Fixed coastal dunes with herbaceous vegetation (grey dunes) Decalcified fixed dunes with Empetrum nigrum Dunes with Salix repens ssp.argentea (Salix arenariae) Humid dune slacks Shifting dunes along the shoreline with Ammophila arenaria (white dunes) Atlantic decalcified fixed dunes (Calluno-Ulicetea) Large shallow inlets and bays Atlantic salt meadows (Glauco-Puccinellietalia maritimae) Mediterranean salt meadows (Juncetalia maritimi) Lowland hay meadows (Alopecurus pratensis, Sanguisorba officinalis) Semi-natural dry grasslands and scrubland facies on calcareous substrates (Festuco Brometalia)(important orchid sites) Machairs (in Ireland) Oligotrophic waters containing very few minerals of sandy plains (Littorelletalia uniflorae) Estuaries Mudflats and sandflats not covered by seawater at low tide Depressions on peat substrates of the Rhynchosporion</p>	Dublin
